Creating a Fectar space

MaFEA – Making Future Education Accessible

PR2 – Guiding successful adoption

Creating a Fectar space

A Fectar space is where each individual experience is created in the Fectar Studio. Every experience requires its own space.

It is possible to create a blank Fectar spaces or use a premade template. A template is recommend for beginning users.
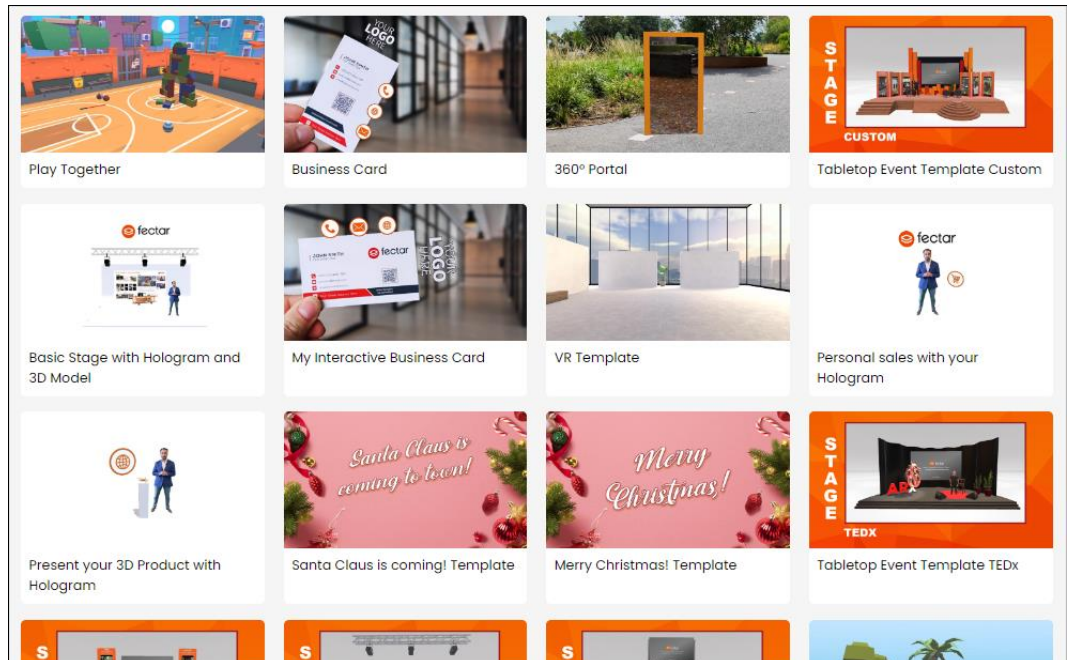

Creating a space from a template

1. Sign into Fectar.
2. Click the More templates -button.

a.

3. Click the desired template. More information on each type of template can be found on Fectar's own tutorials: Tutorials – Fectar.

a.

The new Fectar space will be created and you will be taken to the space's editor tool.
