Viewing a Fectar space

When you have received a link or QR code to a Fectar space, you can try to open it.

The Fectar space can be viewed on a desktop/laptop browser using the link, or on a mobile app using the link, QR code or Fectar code (the last part of the link).

Download the mobile app for:

- [Android devices.](#)
- [Apple devices.](#)

You can practice with this link and QR code which both lead to the MaFEA Fectar content example:

<https://share.fectar.com/KRHVY>

Viewing a space on a desktop/laptop device using a link

1. Click the link or type it into your device's internet browser.
2. On desktop, the Fectar space will open and the Fectar player will load. Click the start-button to view the space.

- a.
3. It is strongly recommended to use a mouse with a mouse wheel when viewing content in a Fectar space. The two mouse buttons and mouse wheel make it much easier.
 - a. Click with the left mouse -button and drag to look around the space.
 - b. Click with the right mouse -button and drag to raise your view higher, lower or side to side.
 - c. Scroll the mouse wheel forward or backwards to zoom in or out. Zoom through portals to enter them.
 - d. Click content with the left mouse -button to interact with it.
